

# National Institute of General Medical Sciences, National Institute of Health/MARC Undergraduate Student Training in Academic Research (U-STAR) Awards

MARC is an undergraduate student training program for institutions with research-intensive environments. Eligible institutions must have a 3-year average of NIH research project grant (RPG) funding greater than or equal to \$7.5 million in total costs. To determine RPG funding for your institution, visit NIH RePORTER. The goal of the MARC program is to develop a diverse pool of undergraduates who complete their baccalaureate degree, and transition into and complete biomedical, research-focused higher degree programs (e.g., Ph.D. or M.D./Ph.D.). NOTE: MARC grants are institutional awards. Applications may be submitted by domestic public/state institutions of higher education, and private institutions of higher education that have a significant number of mentors with NIH or other extramural research support.

## AWARD INFORMATION

Award Amount	Not reported
Number of Awards	Not reported
Application Deadline	Not reported
Available to Class Level	Juniors, Seniors
Renewability	Not reported

## ELIGIBILITY REQUIREMENTS

Minimum GPA Required	0
Ethnicity/Heritage	None specified
Residency	None specified
Gender	None specified
Religious Affiliation	None specified
Location of College	None specified
Area of Study	None specified
Financial Need	Financial need analysis is not required
